|                       |               |                                                                                                             | Wall Series          | 12 5/8" x 19 5/8" | 14 1/2" x 23 1/2"†    | 17 3/8" x 54 5/8"   |

† Note: There are two dimensions for the Wall Series cut hole, interior and exterior. Read the installation instructions carefully before cutting. ‡ Dimensions listed in chart are Width by Height.

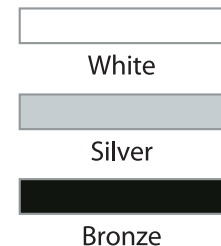

## Installation Height The mounting distance from frame to floor.

Installing your PlexiDor Dog Door at the correct height will ensure the door is comfortable for your dog to use. Stepping up and through the door is best.

**Important:** Use these suggested measurements as a guide. Measure your dog and install the dog door with the opening just above the dog's back.

## Frame Colors
